

Suburban Park Elementary **Special Education Student Goal Statement**

By the end of the current school year, 100% of Suburban Park special education scholars will demonstrate measurable growth in reading and math comprehension as monitored on school, district, and state benchmark assessments (CFAs, DBAs, Star Reading, STAR Math and SOL/VAAP) for a pass rate of at least 75% (maintain) in Reading and at least 85% (maintain) in Math.

Reading Focus Areas 2020-2021

Drawing Conclusions & Making Inferences

I will use information from the text, from the world around me and my own life experiences to make a judgement or create meaning from the text that the author does not come right out and say.

(using visual support & graphic organizers)

Main Idea

I will determine the main idea based on details read.

(using visual support & graphic organizers)

Synonyms and Antonyms (Word Analysis)

I will expand my knowledge and understanding of synonyms and antonyms to determine meaning of new words in context.

(using visual support, word walls & graphic organizers)

Math Focus Areas 2020-2021

Problem Solving

I will use the problem solving process to help me solve single and multi-step practical problems with whole numbers, fractions and decimals using computational strategies.

(using number charts, visual supports, modeling and problem solving strategies)

Number Sense

I will use and understand whole numbers, fractions, and decimals.

(using number lines, benchmark representations, ten frames, place value charts, concrete objects, graphic illustrations, manipulatives and models)

Measurement

I will increase my understanding of measurement through practical and tactile experiences.

(using measurement stations, measuring tools, hands on activities and integrate with science)
