-  The staff at Open Campus is committed to helping students get back on track to earning a high school diploma through in-person learning.
-  Students will receive support with the content matter, participate in SOL prep sessions, and develop skills for job readiness. This will support them as they work to meet their graduation requirements.

In order to attend Open Campus, the last school attended by the students must have been in Norfolk Public Schools. The high school principal must approve the students applying for enrollment in Open Campus. Maintaining a good attendance is crucial for success in this program.
