

NPS High School Specialty Programs Information and Application Instructions

General Application Instructions

Thank you for your interest in applying for one or more of our NPS High School Specialty Programs for entry into the 9th grade at the beginning of 2022-2023 school year.

Please review all information and instructions here, in addition to exploring the Specialty Program Virtual Showcase, reviewing our program brochure that briefly explains each program, and attending one or more program-specific information sessions/open houses prior to completing the online application.

Please note that applicants will indicate their program choice(s) when completing the online application. **Students may apply for up to three high school programs.** However, as part of the application, students will **rank** their program choices in the online application in the order of preference, so please be sure to have made those ranking decisions prior to accessing the application. Requirements of each program are included below.

Online applications that contain all required components must be submitted by 11:59 pm on January 31, 2022.

Only completed applications will be considered. **To be considered “complete,” applicants must ensure that they have submitted the following:**

- **An online application submitted by the deadline** (the application will send a confirmation email to the email provided in the application)
- **Four teacher recommendations**, submitted online by [providing the teachers this link](#). Students who think they will be applying to attend a high school specialty program are encouraged to ask teachers to submit their recommendations early, even if students have not yet decided the program(s) to which they will apply. Teachers may submit recommendations prior to the student’s submission of the online application. However, **all teacher recommendations must be submitted by 11:59 pm on January 31, 2022.** The teacher recommendations must be from the following teachers:
 - **Math teacher**
 - **Science teacher**
 - **English teacher**
 - **General teacher** (the IB Program requires a recommendation from a world language teacher for the 4th recommendation)
- **A recommendation from the student’s school counselor**, submitted online by [providing the counselor with this link](#). Again, students who think they will be applying to attend any of the programs are encouraged to ask their counselor to submit their recommendations early. Counselors may submit recommendations prior to the student’s submission of the online application. However, the **counselor recommendation must be submitted by 11:59 pm on January 31, 2022.**

All non-NPS applicants will also complete the above process. The NPS Secondary Programs office will be in contact with non-NPS applicants regarding needed academic records to accompany applications after the completed online application is received.

Please call the Secondary Programs office at (757) 628-3989 with questions.
