

# The Blair Middle School Pre-Med, Health and Engineering Program (PHME) is designed for middle school students that have an interest in pursuing a career in the medical, health and/or engineering fields.

This program will provide students with a challenging, and rigorous course of study in the areas of science, robotics, literature, English, Math, and foreign language.

PMHE students will be provided with unique learning opportunities through hands-on learning experiences, field trips, and monthly guest speakers.

PROGRAM DESIGN

# It is a great time to be a CLIPPER

# *From the voice of our students...*

"The PMHE program is very challenging, but it is worth it. It is a lot of fun, especially the labs"

"The PMHE program is hard but fun. It challenges you in ways that you may want to give up at times, but the supportive teachers help you want to stay"

**"The classes are rigorous and fast"**
