

Norview NJROTC, in conjunction with Resolve Solutions and The ROCKs Inc, will host an Army ROTC Scholarship "Lunch & Learn" Symposium on Thursday September 26, 2019 from 1030 til 1330. The event will be held in the Media Center with small group breakouts taking place in the small computer labs surrounding the media center.

The symposium will walk students through the Army ROTC Scholarship application and selection process. The program will include an overview of the scholarship application process, a panel discussion, and small group breakouts by occupational specialty. Lunch will be provided.

This program is an outstanding opportunity our seniors to hear testimonials from a panel of current and former Army Officers who hail from humble socioeconomic backgrounds. The panelists will candidly discuss how winning the Army ROTC Scholarship and a college education launched their careers and markedly changed their lives.

Resolve Solutions and the ROCKs host similar symposiums across the US and have set a goal of helping 200 or more students earn Army ROTC Scholarships during the 2019-2020 school-year.

The target audience for this program are students (primarily seniors, but juniors are welcome) from lower socioeconomic backgrounds who have over a 2.5 GPA, 1000 SAT, and are looking for the opportunity to earn a college education while embarking on a rewarding, exciting, and fulfilling career!
