My BIG IDEA for a Re-Imagined Booker T. Washington High School is:

A community that is welcoming to kids and puts effort into communicating with kids.

How would your idea work? What might it look like? (use words and/or drawings)

I feel like something as simple as creating a better outside space for students could be a large step in the right direction. Students are so contained in classes, giving us more freedom would make us want to participate more. Most kids here ~~are~~ who are juniors and seniors have at ~~least~~ least one free period. How nice would it be if we could go sit outside during those periods and just experience fresh air.

- trees  
←
- gardens
  - flowers
  - better seating areas
  - better courtyard
  - more beneficial uses of free period instead of just "going home".
