

WordQ[®]

for Google Chrome[™]

Word Prediction

1. To turn on Word Prediction, toggle the icon on (as shown in the picture above).
2. As you type, the word prediction box will pop up on the bottom of the page.
3. Use the number in front of the word to insert the word into your document.
4. To type a number, temporarily turn off Word Prediction and type the number. Turn Word Prediction back on after you've typed the number.
5. Hover the cursor over the word to hear the word aloud.

Speech Feedback

1. Speech Feedback is turned on by default. Click the SPEAKER button to toggle speech playback on/off.

Read Aloud (Text to Speech)

1. Highlight text that you want spoken.
2. Click the READ button to have it read aloud.

Speech Recognition (Speech to Text)

1. Turn on microphone by clicking the MIC button. 
2. Speak slowly and clearly. As the computer is recognizing your voice, the MIC button displays

animation 

3. Words spoken will be typed into document.
