STUDENT LEARNING OUTCOMES (SLO)

Upon completion of the nursing program, the student will:

Demonstrate professional behaviors of accountability, professionalism, and leadership while developing competence for practice.
PROFESSIONALISM

Use effective communication techniques and interpersonal skills to establish therapeutic relationships with clients and collaborative working relationships with members of the HCT.
COMMUNICATION

Use the nursing process to provide competent and evidence-based nursing care to meet health needs of patients across the lifespan and in varied settings.
NURSING PROCESS

Engage in problem solving and critical thinking, based on analysis of collected data, to achieve health outcomes for clients and families.
CRITICAL THINKING

Provide dignity and respect for clients and families from diverse backgrounds through the use of safe, ethical, legal, and culturally sensitive interactions.
CARING BEHAVIORS

Manage client care through efficient and effective use of time and resources.
MANAGEMENT
