

DYNAMIC DIGITAL PAINTING

This course prepares students to learn basic digital painting and illustration skills to develop their artistic voice. Starting with the basics of Procreate on the iPad, learn how to apply traditional painting methods to your digital painting. Discover techniques to paint landscapes, still life, figures, and portraits. Manipulate your reference photos to make your digital paintings more expressive. Merge photographs into elements of your painting to create unique collages. Create custom brushes to develop your voice within your work. Students will discover tips and tricks to make their digital images look their best.
